Schooner Bloomer
MS. 89

Extent: 1 box

Scope and Content Note: The collection consists of a magic lantern slide and images of the Schooner Bloomer in Barnstable Harbor circa 1890.

Historical Information: The Schooner Bloomer was the last known schooner to work out of Barnstable Harbor. The images in this collection show the Schooner Bloomer on her last legs in the 1890s, broken down and with much of her equipment removed. Photos accompanying the Magic Lantern slide show additional views of the deteriorating ship. In one poignant photo, the ship is anchored out near Sandy neck with a clothesline tied to the mast and clothes hanging out to dry.

Related Material: There are several additional photographs of the Schooner Bloomer in cyanotype in MS 34 – W. R. Bascome Photographs.

Access: Unrestricted access. Credit Sturgis Library for reproduction.

Acquisition: Slide purchased in an online auction. Acquired several photocopied photos from Dave Crocker of Mashpee, MA in 2008.

Processed by: Lucy Loomis, March, 2009

Contents:
